

# Image Access Bookeye 4 - V2 Kiosk Book Scanners BK2239

With its unique book cradle solution, the Image Access Bookeye 4 -V2 Kiosk Scanner, allows the digitisation of bound documents at an optical resolution of up to 400 dpi and A2+ in size, by either lying them flat on the scanning bed or in the V-cradle, at an angle of 120 degrees. The integrated 19 inch preview monitor allows the user to control image quality and make modifications as required and has scanning speed of less than 7 seconds, A2+ at 300 dpi in colour.

Scanned images can be output to USB, eMail, network, printer or via the Scan2Pad app onto a smart mobile device such as an iOS or Anroid. Ideal environments for this scanner include public libraries or archive centres, where users can scan directly to USB sticks, or integrate into a card charge per scan system.

Main features: Bookeye 4, 400dpi optical, A2+ Colour, V-shaped book cradle, foot switch, 19" Monitor, for Windows, 1 year warranty OS.
